25X1C

The data pertaining to construction and costs of the textile items of [REDACTED] accessories has been reviewed by the Supply Division and a determination made as to the appropriate type of item to be procured. The Supply Division is preparing a memorandum designating the outcome of the review. It was further determined that an additional sample of textile accessories will be necessary before a determination is made on that one particular item.

3. Accessories to be manufactured overseas:

In the conferences held between the proprietary corporation's representative and the Chief, Ordnance Branch/Supply Division, it was determined that additional quantities of accessories will be necessary. The Supply Division will submit a requisition covering these additional quantities. Upon receipt of the requisition the proprietary corporation's representative will be advised and the existing contract with the foreign manufacturer will be increased.
